Experience

Freelance Full-Stack Web Developer

October 2023 – present
Atlanta, United States

- Developed responsive websites for small businesses, ensuring a user-friendly experience and optimized performance.
- Worked with technologies such as HTML, CSS, JavaScript, React, and Node.js to deliver high-quality projects.
- Collaborated with clients to gather requirements, set project goals, and deliver solutions on time and within budget.
- Improved SEO for a client's website, leading to a significant increase in search engine visibility, including a top-ranking position for the client's name.

Projects

Music Artist Portfolio Website [🔗](#)

November 2024 – December 2024

Technologies: HTML, CSS, JavaScript, Adobe Illustrator

- Developed a visually appealing, responsive website to showcase the artist's music portfolio, including an embedded music player and gallery.
- Designed the user interface with a focus on UX and UI, ensuring a seamless navigation experience on both mobile and desktop platforms.
- Created custom branding elements, including a logo and color scheme, to reflect the artist's identity and style.
- Worked closely with the client to ensure that the website captured the artist's vision and effectively communicated their brand.

Custom Printify Storefront [🔗](#)

September 2024 – November 2024

Technologies: Nuxt 3, Printify API, Pinia, Figma

- Designed and developed a custom e-commerce website using the Printify API to provide seamless product management and order processing.
- Integrated dynamic cart functionality with Pinia for real-time updates and smooth user interaction.
- Developed a mobile-first, responsive UI/UX design that prioritized user experience across devices.
